

DISABLE CLUSTER BOMBS – NOT PEOPLE.

PETITION TO CALL ON CANADA TO STOP CLUSTERS AND START A NEW TREATY.

Whereas every time cluster munitions have been used in the past 30 years, they have caused predictable and preventable harm to civilians. We feel it is consistent with Canadian values that Canada takes a strong moral and legal stance to prevent this from happening again. Therefore, we, the undersigned, are calling on the Government of Canada to actively engage and support the negotiation of new international law that will eliminate the human suffering caused by cluster bombs.
